Total Service Usage

This shows how much of a service you have and how much you have used.

Services

A **service** is structured support that helps a person meet their individual long-term care goals – such as maintaining health, safety, independence, or community participation.

All services have:

- A **begin** and **end** date.
- A **set amount** of service that can be provided in that timeframe.
- Services are often measured in **hours**, **miles**, or **visits**.
- Your plan is unique to you.

After developing your plan with your care team, the amount of service needed to support you is determined. This is called an **authorization**. Authorizations tell you exactly **how much** of a **service** you are approved to receive.

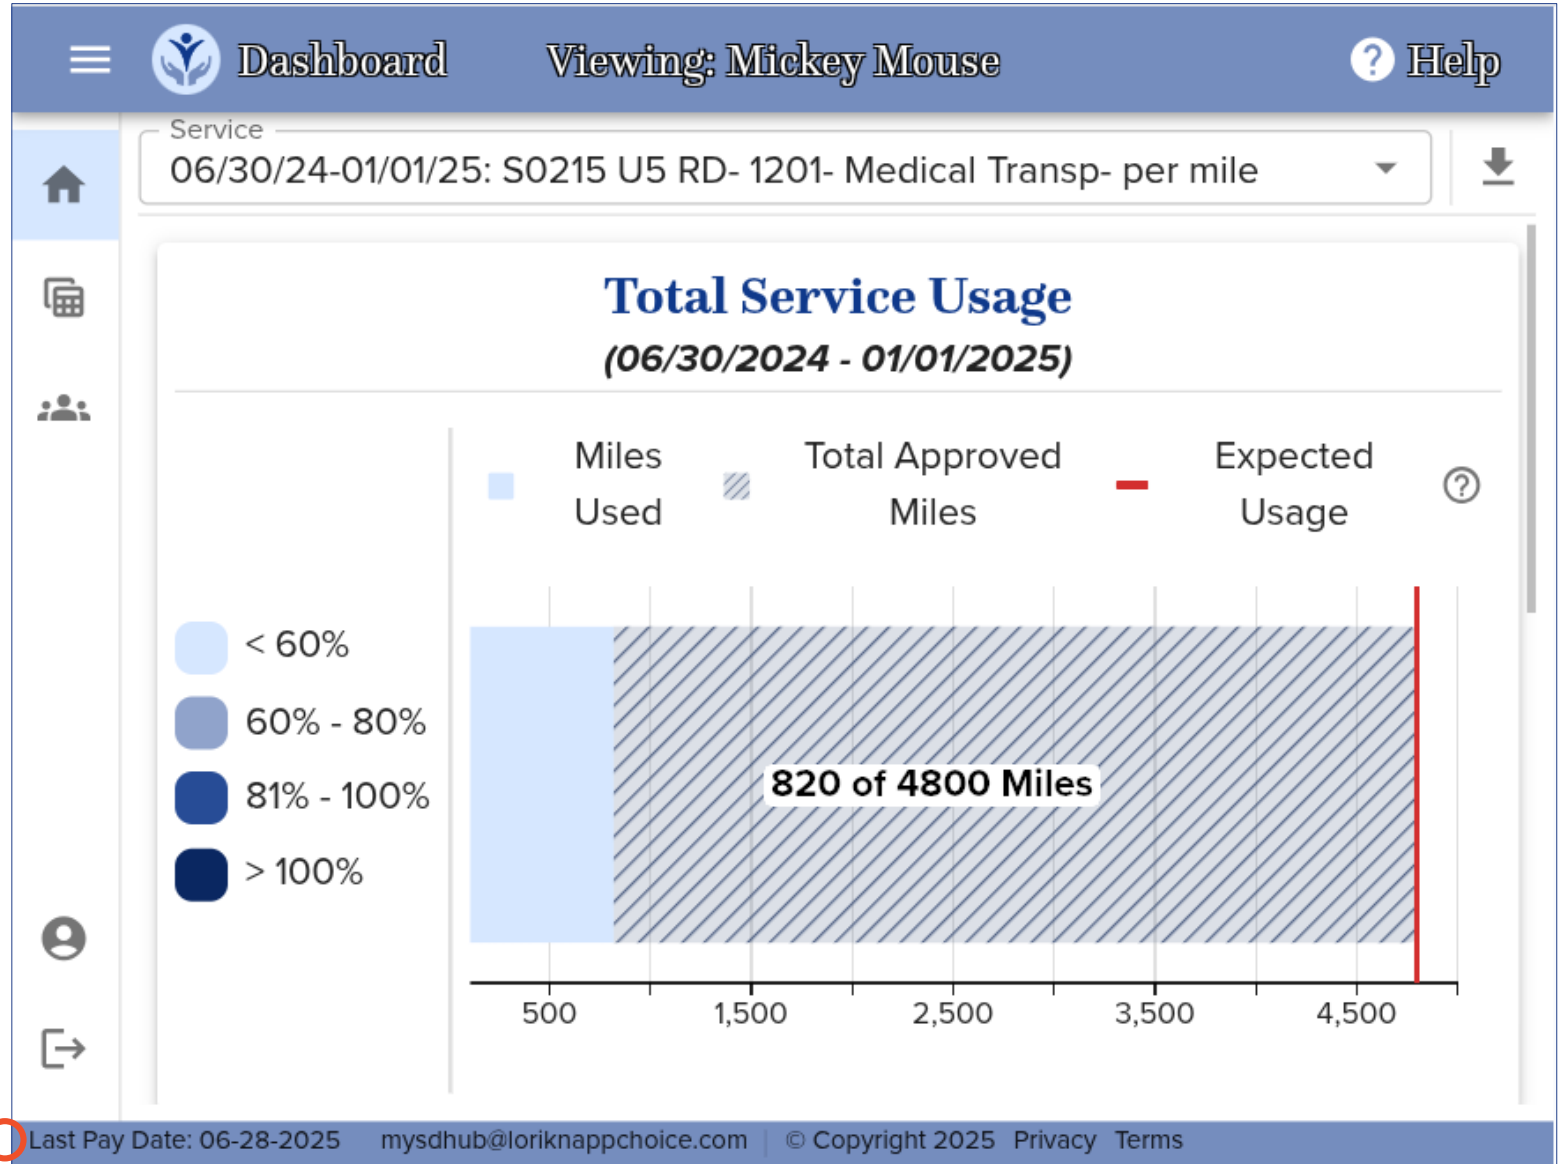

All Service Information Updates Twice a Month

To view your list of services, click the triangle on the right end of the service bar.

Select to View

When you click on the service you would like to view, the dashboard will display only information for that service.

The screenshot shows a dashboard interface for a user named Mickey Mouse. At the top, there is a navigation bar with a menu icon, the word "Dashboard", the text "Viewing: Mickey Mouse", and a "Help" button. Below the navigation bar is a "Service" dropdown menu. The dropdown is currently open, showing a list of services. The first service is "06/30/24-01/01/25: S0215 U5 RD- 1201- Medical Transp- per mile", which is highlighted in grey. Below it are "06/30/24-01/01/25: S5135 U5- 1201- Comp Care- per 15 min", "05/01/24-06/30/24: S5135 U5- 1001- Comp Care- per 15 min", and "01/01/24-06/30/24: S0215 U5 RD- 0601- Medical Transp- per mile". To the right of the dropdown is a "Service" search bar containing the text "06/30/24-01/01/25: S0215 U5 RD- 1201- Medical Transp- per mile". Below the dropdown is a progress bar. The progress bar has a legend with three categories: "60% - 80%" (light blue), "81% - 100%" (medium blue), and "> 100%" (dark blue). The progress bar shows a total of 4800 miles, with 820 miles completed. The x-axis of the progress bar is labeled with 500, 1,500, 2,500, 3,500, and 4,500. At the bottom of the dashboard, there is a footer with the text "Last Pay Date: 06-28-2025", "mysdhub@loriknappchoice.com", and "© Copyright 2025 Privacy Terms".

Total Approved

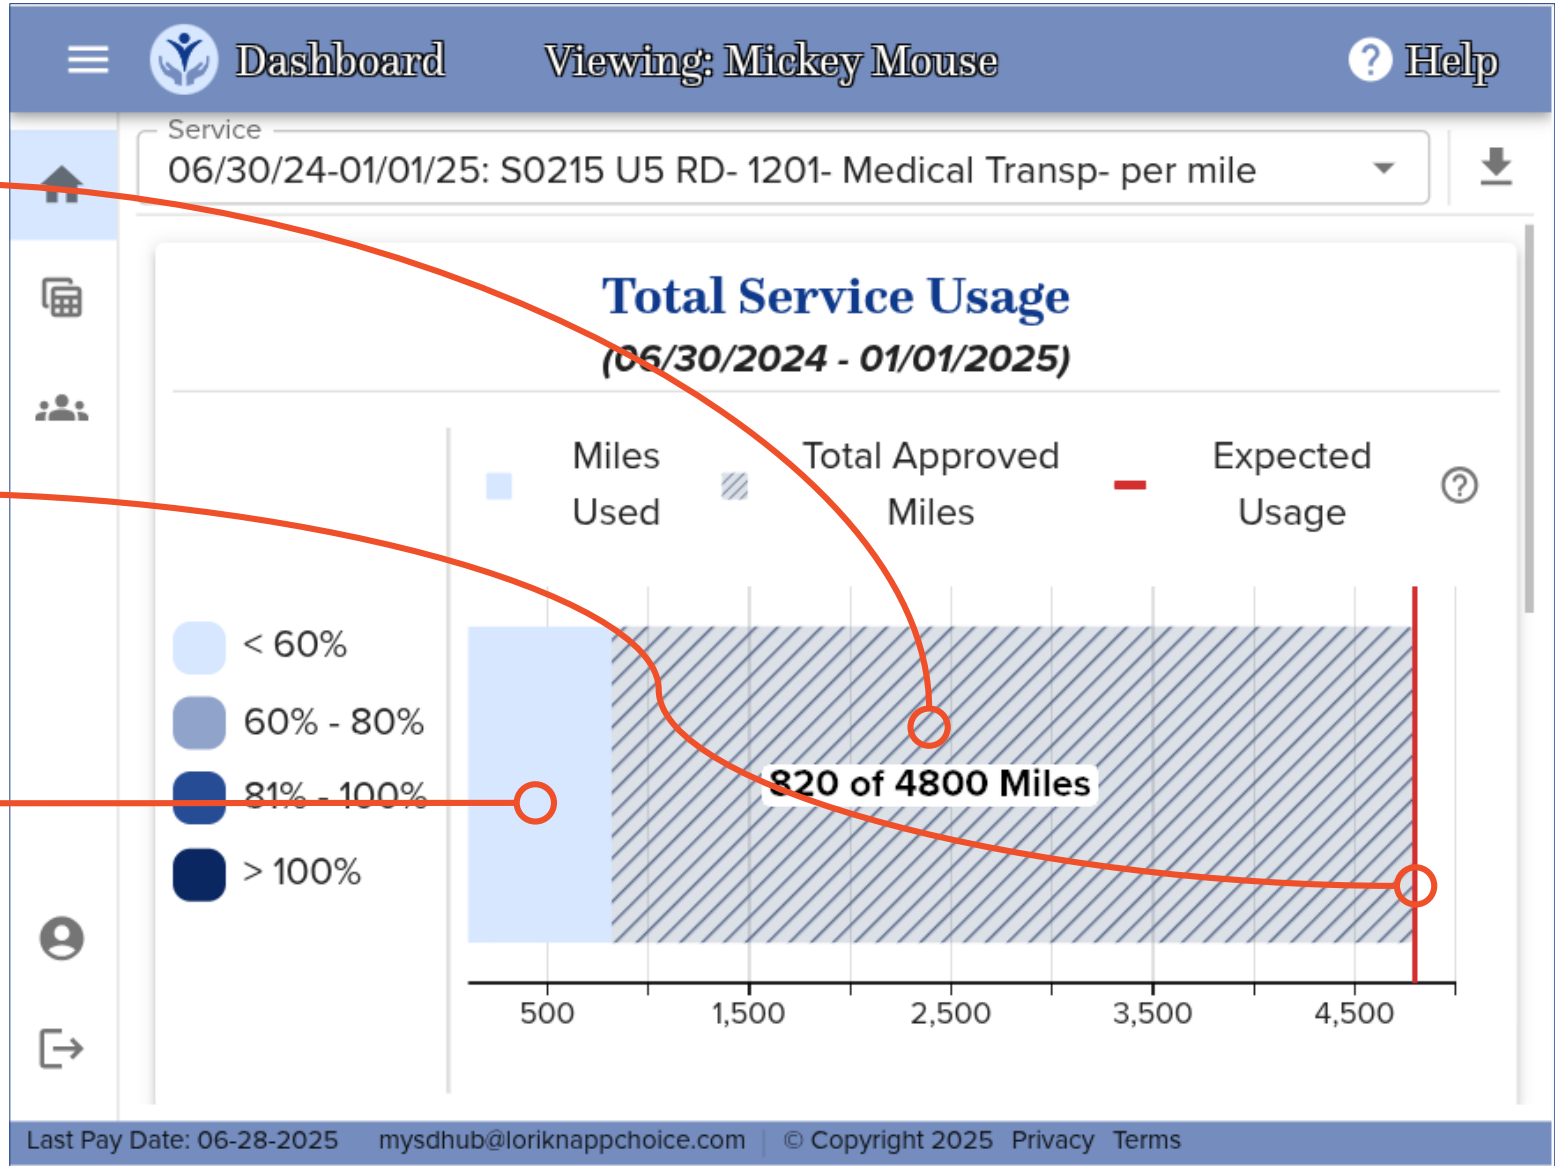

This shows how much of a service is approved.

Expected Usage

The forecast of expected usage if services are being used consistently to date.

Total Used

This shows how much of a service that has been used since the last pay date.

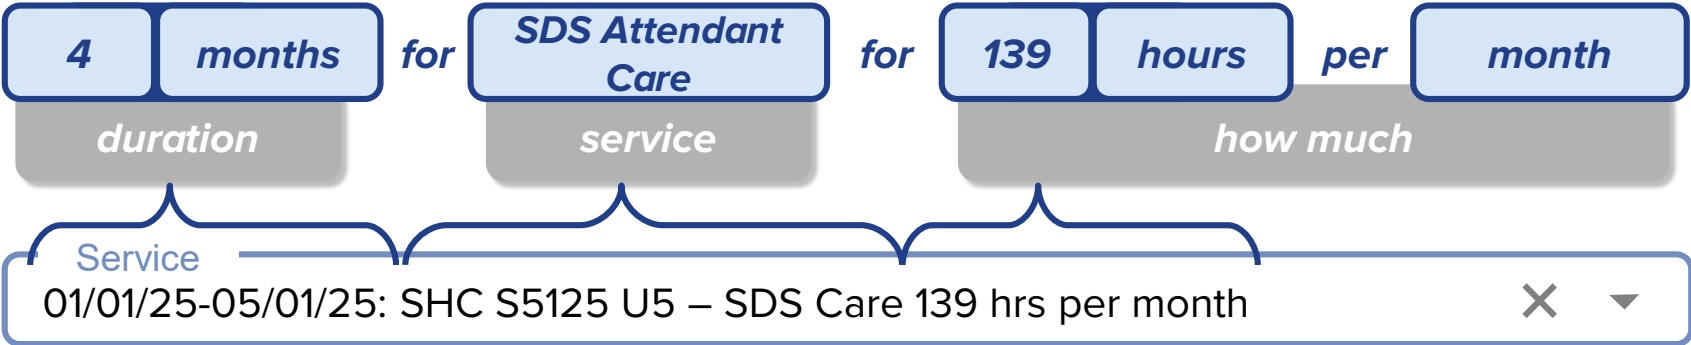

Olivia's Care

Olivia has a care plan for 139 hours per month to have a caregiver/direct care worker assist her with daily tasks - a total of 556 hours over four months.

The red line tells Olivia the estimated use of services based on the last pay date. Olivia has one month left of her current plan and has used more hours than expected. At this rate, Olivia will exceed her limit. Catching this early gives Olivia a chance to make choices to so she doesn't go over her total number of hours.

Example Scenario 1

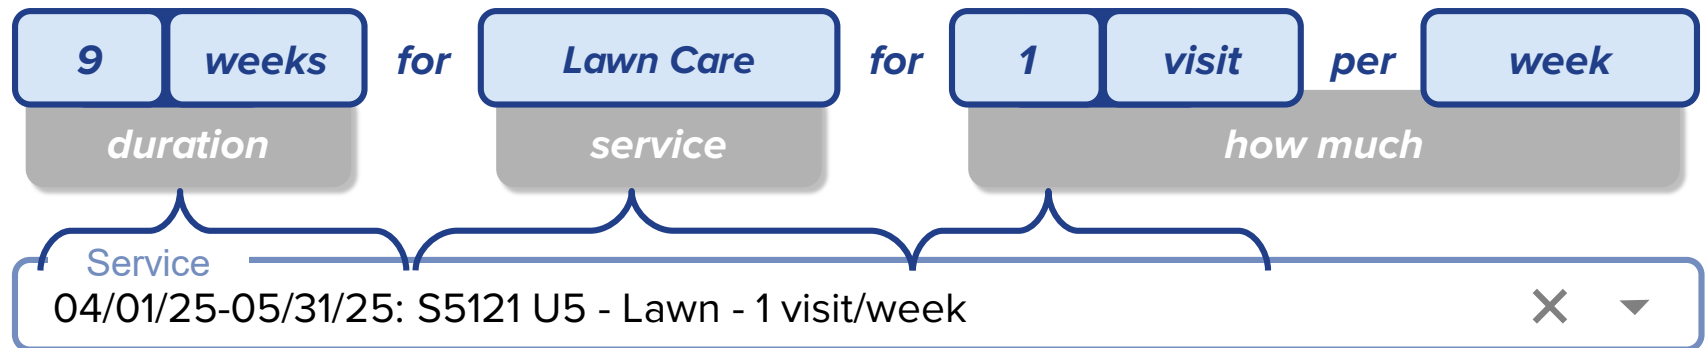

Example Scenario 2

Rose's Lawn

Rose has a service that mows her lawn once a week. This service is approved for two months (nine weeks) at a time. So far, Rose has had her lawn mowed two times.

The red line tells Rose the estimated use of services based on the last pay date - which was week one for Rose. We also see that she has had the lawn mowed two times, beyond her expected usage. If Rose keeps up at this pace, she could go over her limit. This information will help Rose in making decisions about her services.

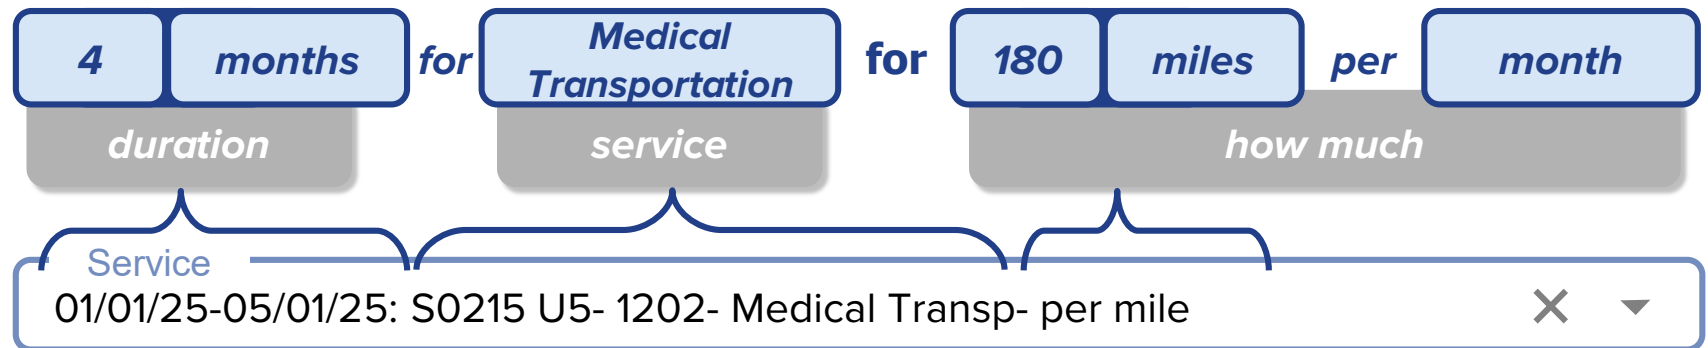

Example Scenario 3

Jose's Mileage

Jose's dashboard shows us that he has a service for 180 miles of medical transportation per month for four months - a total of 720 miles.

The red line tells Jose his estimated use of services based on the last pay date. It is over three months into Jose's five months, and he has used 220 of his 720 miles. At this rate, he can use more miles per month than he has currently been using, without approaching his limit.

Frequently Asked Questions

Frequently Asked Questions

Logging In and Logging Out

For security you are logged out after 25 minutes of inactivity or when you close your browser.

What if I forgot my password?

On the login screen click “Forgot Password?” and enter your email to receive a password reset link. Follow the link to create a new password at least 15 characters in length.

Frequently Asked Questions

As a guardian can I view more than one account?

If you have more than one participant/member who is enrolled, you will need a different login with a different email address and password for each person.

How many accounts can one email have?

One email works for one participant/member account. To log in to a second account you will need a second email address.

Frequently Asked Questions

How do I close my account?

Call us at [844.534.7225](tel:844.534.7225) if you no longer wish to have a login with *mySDHub*. We will need the email address you use to login and the name of the member.

Can I remove access for a representative?

If someone else has access to your account and you no longer want them to, call [844.534.7225](tel:844.534.7225) or email mysdhub@loriknappchoice.com.

Frequently Asked Questions

When does my balance update?

Balances update the day after payroll and vendor payments are processed. This occurs twice a month.
